

## VACUUM POUCHES

Lamitech can provide a broad variety of vacuum pouches: clear, gold and black backed, and printed. Seal in freshness with FDA and USDA approved vacuum pouches. Various sizes, colors and style options are available for your food packaging needs. We can add any features to the pouches that you desire: zip lock, tear notch, hang hole. Stock sizes are available and competitively priced.

## ABOUT LAMITECH

### Go With a Supplier You Can Trust

Lamitech is a fully integrated, American, paperboard manufacturing company and, for almost three decades, has been producing direct food contact packaging since our founding in 1994.

Our size, experience, geographical scope and approach to business make us a reliable partner to meet all of your product packaging needs.

Food Safety  
Inspected

## SEAFOOD PACKAGING SPECIALIST

**LAMITECH, INC.**

## SEAFOOD BOXES

Lamitech has both fully printed boxes for your retail needs and plain white boxes for delivering to food service.

### Lamitech boxes are:

- Made to your specifications
- Manufactured in a variety of thicknesses
- Produced with moisture resistant paperboard
- FDA approved for food contact
- Made in the USA

## SAMMY BOARD

For almost three decades, Lamitech has been serving the smoked seafood industry with the highest quality fish boards. Our dedication to continuous improvement has made Sammy Board the preferred product for smoked salmon processors coast to coast. Lamitech is an AIB certified food safe manufacturing facility.

### Sammy Board is:

- Available in a combination of gold, silver, and black colors
- Provided to you in any size
- Manufactured in a variety of thicknesses
- Capable of enduring frozen and wet environments
- Made with pre-consumer moisture resistant recycled paperboard
- FDA approved for food contact
- Made in the USA

### What Sammy Board can do for you?

- Helps display your premium product with a high end look
- Protects your seafood in storage, transit and on display
- Makes packaging your fish easier
- Provides the consumer with a serving tray for your ready to eat product

## BELLY BANDS, SLEEVES AND CLOSED SLEEVES / FOOD ENVELOPES

### Belly Bands:

Add packaging appeal to your product with Lamitech's Belly Bands. Our Belly Bands can slide around your existing box or around your vacuum packaged seafood.

### Sleeves:

If you want more real estate for your retail name, graphics, nutritional information, ingredients, etc. we produce sleeves which can be as wide as your entire product and easily fit around it.

### Closed Sleeves / Food Envelopes

For a flat vacuumed packed product, such as smoked salmon you may consider a closed sleeve/food envelope. After vacuum sealing your seafood slip it into our closed sleeve/food envelope and it's ready to hang at your retailers.
